CONFERENCE

Simplicity at the heart of the Collaboration App

Both employees and guests have easy and free access to our straightforward and simple solution.

- Admin free installation from www.clickshare.app
- Presence detection for easy connection
- No training needed
- Advanced features designed for collaborative environments
- Intuitive user interface

Dive into advanced collaboration

We've added a useful set of **collaborative and interactive features*** to the App. Only functionalities that bring value to collaborative environments or that enhance meeting efficiency make the cut.

- Pause content on the meeting room screen
- Use window selection to show only the application or document you prefer
- Extended desktop: take notes on your device while sharing content with second screen (requires installation of the extension pack)
- Moderate: preview, control the documents, you decide what goes on screen
- Ideate with annotation and blackboarding.

* Not all features are available on all ClickShare Conference models

Join the conversation effortlessly, decide how you share

Get the richest way of collaboration when **combining the Collaboration App with the Conferencing Button**.

Enjoy wireless conferencing with the Button and access an advanced set of collaboration features in the Collaboration App: pause, window selection, extended desktop, ideation and moderation. These are available to you whether you use the Button or not to share content.

Getting started

1 Detect & Connect

2 Share & Collaborate

3 Disconnect & Leave
