CONFERENCE

Where in-office and remote workers meet face to face

Bring your own meeting and start faster. Simply plug in the ClickShare Conferencing Button, set up a call with the Unified Communications Tool of your choice and in less than 7 seconds you are ready to go.

This new functionality is called **room dock**. It makes remote meetings seamless, hassle-free, and truly impressive.

- An immersive meeting experience
- Involve remote participants more actively
- Create higher meeting engagement for all participants
- Use the conference tool that you find most productive
- Connects your device to cameras, soundbars and any other
- No more frictions when hosting conferences from your laptop
- No more struggles with meeting room equipment
- No cables or additional wires
- Unique collaborative features

Triple agnostic solution

The power of ClickShare Conference lies in the freedom to choose. You decide how you collaborate securely.

From whichever **device** you want to, in any meeting space

With the **UC or videoconferencing tool** of your choice (e.g Skype, Zoom, MS Teams, webex, BlueJeans....)

Connecting to any **AV peripheral** in the meeting room

CONFERENCE

Use case

You have started a **remote meeting** at your desk, but other colleagues want to join.

Simply walk over to a meeting room, **connect instantly** via the ClickShare Conferencing Button without having to close or restart your conference. The meeting continues, but the laptop camera has switched automatically to the room camera and the audio is also diverted to the meeting room speakers or soundbar. **Content sharing, sound and images are now enhanced by the AV technology in the room**.
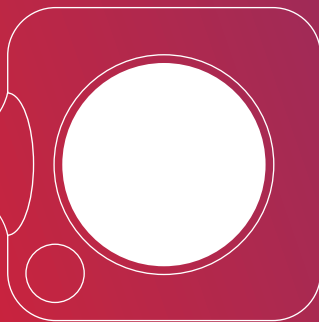

Sharing and collaborating interactively (e.g. blackboarding, annotation, moderation) can be done with either the Conferencing Button or Collaboration App.

Conferencing Button

- Instantly makes meeting room video and audio streams available to your laptop
- Has an additional **Quick Button** that
  - brings the big screen back to your device: 'local view'
  - activates power functionalities like ideation, moderation, snapshots, control of AV equipment...

Collaboration App

- Connects instantly to the meeting room thanks to presence detection from your laptop or mobile device
- Instantly makes meeting room peripherals available to your laptop*
- Advanced set of collaboration features: pause, window selection, extended desktop, ideation and moderation.

Button and App work perfectly together and offer **one unified, intuitive user experience throughout the entire enterprise**, in any type of huddle, meeting or boardroom. ClickShare Conference gives immediate access to wireless conferencing, interactive sharing and feature-rich collaboration.
